Urbandale, IA 50322

Dear Dr. McDonald:

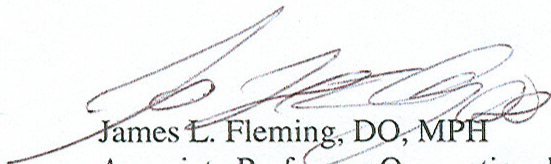

The final edition of the "Bioterrorism Preparedness and Response" course modules, funded by the Federal Emergency Management Agency, has been submitted to the Iowa Emergency Management Division for their review.

We would like to take this opportunity, with utmost delight, to acknowledge you for all the work and dedication you have put into developing and preparing your invaluable lecture notes, presentation slides, as well as additional material. We would not have been able to complete this project without your efforts.

We thank you for accepting this assignment, and for granting us this opportunity to collaborate with you in this endeavor. We hope that we can count on your support, and on working with you, on future anticipated projects.

We will keep you posted on further developments. Thank you once again.

Sincerely,

James L. Fleming, DO, MPH
Associate Professor, Occupational Health
Project Co-Coordinator

Anthony R. Mawson, DrPH
Associate Professor, Public Health
Project Co-Coordinator
